

Nextcloud Mail Signature

On Nextcloud Mail app you can add your signature by going to Account Settings.

Under the tab Signature

Our templated proposal to be used as a Signature while migrating below:

[First Name] [Last Name]

[Job Title]

[email address]

[Optional: office hours / days closed note]

[Organization Name] is migrating off Google! During this transition, it's possible that we may miss some emails or calendar invitations. Please don't hesitate to reach out again if I'm slow to respond. Thank you for your patience as we adjust to our new systems!
