

# Server Specs

Public documentation with a description of the specs for all the instances we provide.

- [Starter Packages Server Specs](#)
- [Medium+ packages Server Specs](#)
- [On-demand Server Specs](#)
- [Server location\(s\)](#)

# Starter Packages Server Specs

Instance	vCPU	RAM
Discourse, funkwhale, invoiceninja, matomo, mattermost, mediawiki, nextcloud, peertube, wordpress, writefreely	1vCPU	2 GB
Mastodon, Peertube, Gitlab, Zammad	2vCPU	4 GB
Bigbluebutton	4vCPU	16 GB

# Medium+ packages Server Specs

The Medium+ instances have the [Starter specs](#) by default, but the servers will be upgraded to the specs listed below if requested by the Subscriber, or if you face issues with the instance.

Can be upgraded up to (with no extra costs):

Instance	vCPU	RAM
Discourse, funkwhale, invoiceninja, matomo, mattermost, mediawiki, nextcloud, wordpress, writefreely	2vCPU	4 GB
Peertube, Mastodon, Gitlab, Zammad	2vCPU	8 GB
Bigbluebutton	8vCPU	32 GB

**Note:** if you will need a server upgrade with specs higher to those listed in the table, you can reach out to [support\(at\)cloud68\(dot\)co](mailto:support(at)cloud68(dot)co) and our team will guide you on the next steps.

# On-demand Server Specs

Interested in having an instance with something

different than our Starter or Medium+ package? Fill in the form here with all your requirements and our team will get back to you: [cloud68.co/get-your-instances/on-demand-services](https://cloud68.co/get-your-instances/on-demand-services)

# Server location(s)

At the moment our servers are located in Germany. We explain everything about the location of the data centers where your data is hosted in our Terms of Service document located here <https://cloud68.co/legal/terms-of-service>.

This applies to our standard Starter and Medium+ packages. For on demand packages please contact our team to get more details [cloud68.co/get-your-instances/on-demand-services](https://cloud68.co/get-your-instances/on-demand-services).
